## Notice.

There will be an Ice Cream Supper at the Campbell School House on the night of the 28 under the Auspices of the Farmers union at that place every body invited come one come all.

## Farmers and Laboring men.

Bible Socialism as an abstract proposition means the Ideal and perfect state of society. Sung and dreamed of by all the inspired men of God, the prophets, the priests and the philosophers of the great past, and the present. From the declarations made by all the great thinkers of the human race, we learn that they have observed, the imperfections of the governments that have existed in their, day and do exist. They have noticed since the fall of man, or in other words since the days of the great Assyrian, who was a Cedar in Lebanon. Since that time until the present, they have noticed so far everywhere governments have been practically owned and operated by a small class of the people and manipulated by the few for their benefit alone. Those men, they have observed the evils incident to class rule and the injustice inequality and oppression meted out to the great masses of the people composing the working classes. And have even foretold of the same. They have seen the workers of this great world, held as chattel slaves of the rich. And in some few instances they have seen them emancipated, only to see them bound under serfdom, and in turn they have seen this give away to, wage slavery placed upon them by monopolized power. This has all been thought of, spoke of, and a more perfect way talked of. A perfect way, Bible Socialism that would give us a universal Brotherhood, which would place the farmer and laboring man on an equality with the money gods of earth. In union there is strength.

## We are still in the field

We have at all times presented to the public, "The World's CRESSET." As a friend to the Farmer and the Laborer; and its religious and political belief bible Socialism. The truest and best of all beliefs. It is a Bible fact that Farmers should Co-operate together and form one universal Brotherhood, and take into their consideration all mankind, God said to the created man "Replenish the earth" and to the formed man He first said "dress the garden and keep it" But as he violated God's command God sent him forth to "till the ground from whence he was taken." This is the first duty of man: to his fellowman co-operate in beautifying earth and home together. By the grand principals of Bible Socialism. And to be true to our cause we must unite our efforts together, and that to do away with the profit system and establish a system that will give to every man his earnings. For instance if I pay 100 men \$100 to tan leather and make 100 pairs of shoes (which is more than the labor costs today, see census report,) and sell those shoes to the men for \$3 a pair, do the men get the value of their labor? Is \$100 wages the equivalent of \$300 paid for shoes? How many of the shoes can the men buy back with their wages?

Now under Socialism the price of articles would be the labor cost of producing articles. So if the labor was paid \$1 a pair for producing shoes (including the making and maintenance of machines) then the price of shoes would be \$1 a pair. Then the workers could buy back all they produce and there would be no profit or surplus to make some idlers rich and corrupt, and there could be no panics or crises. There would be no shoeless men because they had made more shoes than they could buy, as is the fact today.

If the people owned the railroads there would be no profits

going to make millionaires; there would be no bribing of legislators, city counsels or judges, there would be no interfering with rates in the interest of this, that or the other place; there would be no scandals, such as we have been having for years, there would be no interfering with elections and voters, there would be no secret rebates to favored shippers, there would be no millions spent by the government and states to convict the owners for their crimes against society. there would be no ownership of the great papers and magazines by railroad magnates to deceive the public, such as there is today if—a small but potent word. The people can have Bible Socialism and they will have it when they study upon the subject. It is to deceive them and prevent them from studying up that railroad millionaires have paid out millions to acquire the ownership or control of the press and prevent the people getting the truth about conditions. Private capital corrupts government.

## TRASK ITEMS.

Quite dry at present, needing rain badly.

Minda Roe is visiting friends in West Plains this week.

Della Smith is staying with Maggie Smith while Mr. Smith is with the bailer.

Mattie Ledbetter is staying with Mrs. Floyd Campbell.
